

Our mission is to help unhoused people move towards self-sufficiency and find safe homes in our community.
Our core values of Dignity & Privacy, along with Collaboration and Persistence, lead to Empowerment

In 2023, we remained 100% volunteer-driven. Compared to 2022, our experience helped us gain efficiencies so that we nearly doubled the number of clients helped and *housed 370% more!*

2023 was also our biggest fundraising year ever, achieving over \$52,000, half from our incredible volunteers and donors, half from grants. Our main use of funds remains licensing for our client management software and supporting our clients, but we also expanded our two open source tools for housing and benefits, and secured a much needed co-location space at Trinity United Methodist in Mountain View.

Active Volunteers

100's of Collaborations

across other service providers & government agencies.

2024 Goals

1. Serve 20% more clients
2. Formalize training for volunteers and collaborators
3. Expand volunteer base
4. Add Tech. Literacy for clients
5. Launch Financial Wellness Arm
